

WORKSHOP

The
Awareness
Project.

UNCONSCIOUS BIAS & LANGUAGE

1 1/2 HOUR WORKSHOP

This is the best place for businesses to start. This high impact workshop provides you with the fundamental skills to recognise then combat your unconscious bias, become aware of the impact that your language has on others, then learn practical skills to influence and create social change through the words you use. Get the conversation about social impact started amongst your employees.

MAIN TAKEAWAYS

Staff will leave knowing what unconscious bias is and how they can minimise their own biases coming through in the workplace. They will also leave understanding how important language is and how they can watch their own language during the working day.

WHO IS THIS FOR?

All staff can attend this seminar, as it is a great introduction to the topic of social impact & diversity in general. For larger organisations, a separate session for management teams can also work well to ensure that managers are leading from the top.

HOW IS IT RUN?

This is an open, non confrontational style workshop that runs for 1 1/2 hours, including discussion throughout the session and questions at the end. Maximum people per workshop is 30 to allow for meaningful discussion.

VENUE & FACILITIES

We will come to your offices if you have room for 30 people, otherwise we can arrange a venue. We require a laptop + projector with sound for our power point presentation.

INVESTMENT

10-30 employees (1 workshop) \$1,000 +GST per workshop
30-60 employees (2 workshops) \$900 +GST per workshop
60-90 employees (3 workshops) \$800 +GST per workshop
90+ employees (3+ workshops) \$700 +GST per workshop

Contact Kate on 027 311 9676 or kate@theawarenessproject to to book a seminar for your organisation or if you have any questions.
